Why this Dispersion Sale?

Our Shorthorn herd has always been maintained as a family project. Needless to say it has been a very successful project from every angle, not only for ourselves but for those that have purchased breeding stock from us.

My father, William S. Perkins was given a Shorthorn cow for a wedding present in the year 1886 and there have been Shorthorns in these farms ever since. The first Scotch Shorthorn was purchased in 1917, but it was not until the spring of 1942 that the active management of the herd was assumed by my son, Stanley, that the progress as measured on a national basis was recognized. Since then, the record of Broadblade Shorthorns is history and well known by all those interested in improved livestock. I will not take space to relate it here. The herd has always been maintained on a practical money-making basis and has never been pampered or coddled in any way. Every brood matron has been kept because of her merit, her ability to reproduce Shorthorns of the most approved modern type. No whims or fancies have ever been allowed to influence the owners either in their choice of herd bulls or purchase of heifers to add to the herd.

Loving Shorthorns as I do it has not been easy for me to come to the decision of dispersing the Broadblade Herd. However, life goes on. My daughter, June, is now married and the mother of two fine boys, my son, Stanley has taken a position as Eastern representative of the American Shorthorn Breeders' Association and therefore it seems necessary that this Sale be called at this time.

The Sale is being held on short notice and for that reason the cattle will not be highly fitted but will sell in just good breeding condition.

This will be a complete dispersion. No cattle have been withheld and no members of this immediate family or agent thereof will bid in this sale.

FENTON C. PERKINS

OPEN LETTER TO BUYERS

The cattle that are to be sold in this sale are the kind that appear in an auction only when a herd that has been created through years of careful breeding and rigid culling is completely dispersed.

In founding their herd the Perkins selected well bred females of outstanding individuality. In their purchase of herd bulls, no distance was too great to travel if the right bull could be found. As in all herds, certain foundation females proved to be the best producers. They formed the families that have made Broadblade a herd that is a real credit to the breed. Breeders who select from this offering will be years ahead in their breeding program.

No herd has done more to promote the Shorthorn cause in the state of Michigan. In Michigan the Michigan State College Feeding Contest is the scene of the hottest interbred competition. For three successive years (1945-1947) entries from Broadblade herd won the coveted combination class award. This year they exhibited the grand champion steer over all breeds. In all they have garnered three breed championships, one reserve championship, the production cup, and the grand championship over all breeds.

The herd is now at its peak of productivity. The Perkins don't mind telling you that what they have they owe to Shorthorn cattle. These are the cattle that have made money for them. They will do the same for their new owners. We all regret that the Broadblade herd will be dispersed. However, we are happy that the junior member of the firm, Stanley Perkins, will continue to promote the breed of cattle he loves in his capacity as field representative for the American Shorthorn Breeders' Association.

Hal Longley of The Shorthorn World.

BROADBLADE ROSEWOOD 3RD was a member of our '48 Show Herd. This is another daughter of Sherbrooke Prince Peter and 2nd prize calf at 1947 Michigan State Fair. All told six of his heifers sell in this sale. Someone should buy all of these heifers. They would make a great foundation for a new herd of the quality everyone is searching for. Bred since September 24 to Broadblade Prince Peter 15th.

Broadblade Prince Peter 8th, reserve Champion Bull of the 1947 Michigan State Shorthorn Fall Sale and sold to John Donineau & Sons, Kinde, Michigan. Broadblade Blossom 4th selling as Lot 31 is a full sister to this bull.
